High Dimensional Study Papers

Li, K. C. (1991). Sliced inverse regression for dimension reduction, with discussions. *J. Amer. Statist. Assoc.* **86**, 316-342.

Li, K. C. (1992). On principal Hessian directions for data visualization and dimension reduction: another application of Stein's lemma. *J. Ameri. Stat. Assoc.* **87**, 1025-1039.

Li, K. C. and Duan, N. (1989). Regression analysis under link violation. *Ann. Statist.* **17**, 1009-1052.

Li, K. C. and Ylvisaker, D. (1989). Another look at adaptation on the average. *Statistics and Probability Letters* **7**, 381-383.

Duan, N. and Li, K. C. (1991). A bias bound for applying linear regression to a general linear model. *Statistica Sinica* **1**, 127-136.

Duan, N. and Li, K. C. (1991). Slicing regression: a link-free regression method. *Ann. Stat.* **19**, 505-530.

Li, K. C. (1990). Data-visualization with SIR : a transformation-based projection pursuit method. *Technical Report.*

Li, K. C. (1992). Uncertainty analysis for mathematical models with SIR. *In "Probability and Statistics"*, 138-162, edited by Jiang Ze-Pei, Yan Shi-Jian, Cheng Ping, and Wu Rong, World Scientific, Singapore.

Carroll, R. J. and Li, K. C. (1992). Measurement error regression with unknown link: dimension reduction and data visualization. *J. Amer. Stat. Assoc.* **87**, 1040-1050.

Hall, P. and Li, K. C. (1993). On almost linearity of low dimensional projection from high dimensional data. *Ann. Stat.* **21**, 867-889.

Cheng, C. S. and Li, K. C. (1995) A study of the method of principal Hessian direction for analysis of data from designed experiments, *Statistica Sinica* **5**, 617-640.

Carroll, R. and Li, K.C.(1995). Binary regressors in dimension reduction models: a new look at treatment comparisons. *Statistica Sinica* **5**, 667-688.

Li, K.C., Aragon, Y, and Thomos-Agan, C.(1995). Analysis of multivariate outcome data: SIR and a nonlinear theory of Hotelling's most predictable variates. *Submitted to Journal Amer. Statist. Assoc.*

Horng, M.J., K.C. Li, and W.W. Yeh. (1996). "Uncertainty analysis of groundwater modeling via statistical dimension reduction. *Manuscript.*

Li, K.C. (1997). "Sliced inverse regression" . In *Encyclopedia of Statistical Sciences*. Update vol 1. page 497-499. Edited by S. Kotz, C. Read, and D. Banks. John Wiley, New York.

Li, K. C. (1997). Nonlinear confounding in high dimensional regression. *Ann. Statist.* **25**, 577-612.

Filliben, J. and Li, K. C. (1997). A systematic approach to the analysis of complex interaction patterns in 2-level factorial designs. *Technometrics* **39**, 286-297.

Chen, C.H. and Li, K. C. (1998). Can SIR be as popular as multiple linear regression? *Statistica Sinica* **8**, 289-316.

Comment on "Principal Hessian Direction, revisited." *Journal of American Statistical Association.* **93**, 94-97.

Li, K.C., J.L. Wang, and C.H. Chen (1998). "Dimension reduction for censored regression data". *To appear in Ann. Stat..*

Li, K.C., and Lue, H.H (1998) Interactive tree-structured regression via principal Hessian directions. *Manuscript.*

Li, K.C., and Chen, C. H. (1997) A Three-way subclassification approach to multiple-class discriminant analysis. *Manuscript.*

Chen, C.H., and Li, K.C. (1998) Generalization of Fisher's linear discriminant analysis via the approach of sliced inverse regression. *Manuscript.*

Li, K.C. and Shedden, K. (1998). Monte Carlo blind deconvolution guided by the inverse filter. *Manuscript.*
