

1. We ask a lot of questions. Why? ☺
2. Statistics is the science of drawing conclusions from data to answer questions.
3. What are data? (that's a good question...)
4. Stat 10 Survey
(copies can be found at <http://web.stat.ucla.edu/~vlew/stat10/handouts.html>)
5. Categorical vs. Quantitative Variables
6. What can go wrong? (see page 11 of your text)
